Nylon-string guitars taken beyond tradition.

Guitar Shown: 45 R

SERIES

Iberia

FEATURED

1. Requinto (1/2 Size)
2. Cadete (3/4 Size)
3. Dolce (7/8 Size)
4. C3
5. C5
6. C5-CE
7. C5-CETBK

DETAILS

The C3 and C5 level models range from half to full size and feature solid Canadian cedar tops with African mahogany backs and sides. These completely handmade guitars have comfortable playing action and warm, resonant sound.

MORE

C5 and C5-CE are available as fullbody or thinbody models with natural or black finishes.

SERIES

Iberia

FEATURED

1 C7 SP/IN
2 C7-CE CD/IN
3 F7

DETAILS

C7 and C7-CE models feature Indian rosewood back and sides with the choice of solid Canadian cedar or European spruce tops. All European spruce is FSC certified.

MORE

All Córdoba guitars have hand-inlayed rosettes with intricate mosaic patterns made from natural woods.

3

FEATURED

GK Studio

DETAILS

The newest Gipsy Kings' signature model, the GK Studio features a slightly thinner neck and lowered, flamenco style string height, making it an extremely comfortable guitar for any player and style. The lightweight body and European spruce top over cypress back and sides give the GK a bright and snappy tone with a quick and responsive feel.

MORE

Equipped with a Fishman Presys Blend pickup with 4 Band EQ and digital tuner.

1

SERIES

Iberia

FEATURED

1 C9 SP/MH
2 C10 CD/IN

DETAILS

Completely handmade using all solid woods. The C9 has solid mahogany back and sides, providing a round and sweet tone—the C10 has solid Indian rosewood back and sides, giving a deep and full-bodied tone. Both are extremely resonant with great sustain.

MORE

The C9 and C10 feature stunning hand-inlayed Mother of Pearl weave rosettes inspired by a 1920s Domingo Esteso design, and are available with a European spruce or Canadian cedar top.

2

SERIES

España

FEATURED

45MR (Madagascar rosewood)

DETAILS

Authentic Spanish hand craftsmanship offered in a variety of classical, flamenco, and cutaway electric options. The 45 and 55 level models feature solid Canadian cedar and European spruce tops and detailed wood inlays for rosettes, bindings and purflings.

MORE

45 model also available with Indian rosewood (45R). 45 flamenco models not shown include the 45FM and 45FP (FP = traditional friction peg tuners).

SERIES

España

FEATURED

55FCE

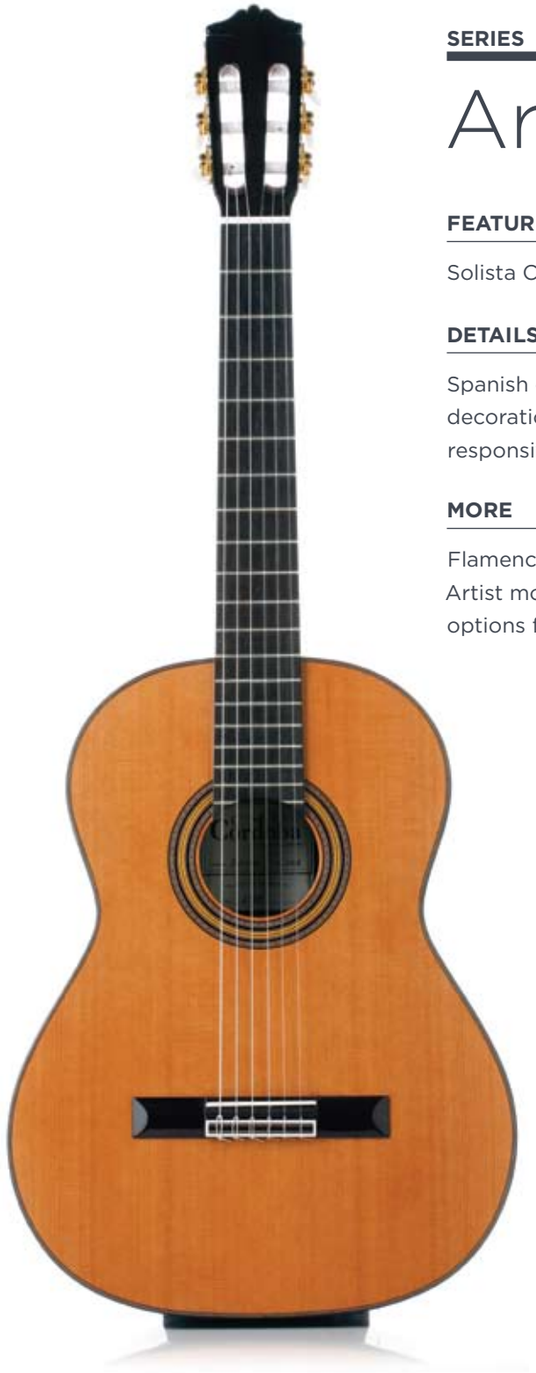
DETAILS

Córdoba's flagship thinbody cutaway electric model, the 55FCE features flamed maple back and sides and Fishman ProBlend electronics.

MORE

Córdoba developed the 55FCE's striking honey-amber finish to highlight the guitar's flamed maple back and sides.

Guitar Shown: Solista Flamenca



SERIES

Artist

FEATURED

Solista CD/IN

DETAILS

Spanish construction using all solid woods, intricate decorations, and two and three-piece backs. Lightweight, responsive and robust.

MORE

Flamenco model not shown (Solista Flamenca). All Artist models available with cutaway and pickup system options from BBand, Fishman, Shadow and others.

SERIES

Loriente

FEATURED

Sofia

DETAILS

Handmade in Spain, the Loriente Collection guitars are constructed with the finest all solid tone woods available. The designs adhere to the traditions and techniques of Spain's most proven makers—Torres, Santos Hernandez, Manuel Ramirez, and Domingo Esteso.

MORE

Select models are finished with a hand-rubbed French Polish, a lightweight and resonant finish method used by European craftsmen since the 1700s.

SERIES

Loriente

FEATURED

1 Carmen
2 Marieta
3 Angela

DETAILS

Loriente designs follow the strict specifications of the classic Spanish guitar. Scale lengths are 650mm long and nut widths are 52mm. The bracing is a Torres style fan pattern that allows the top, back and sides to be made thin and lightweight. Combined with AAA grade woods and a traditional French Polish finish, the result is punchy volume, balanced tone and deep resonance.

MORE

All models have African ebony fingerboards, Spanish cedar necks, and the option of a Canadian cedar or European spruce top. Clarita model not shown.

SERIES

Fusion

FEATURED

Fusion 12 “Jet”

DETAILS

Nylon-string guitars for steel-string musicians. The first guitars to merge the acoustic bracing and tone of a traditional nylon with the thinner neck and fast action of a steel-string. Radiused fretboards and 12 or 14 fret neck-to-body construction make these the most comfortable crossover guitars for steel-string and electric players.

MORE

All Fusion models are equipped with Savarez Corum Alliance strings, carbon fiber based nylon strings with thinner diameters and higher tensions that feel comfortable to steel-string guitarists.

SERIES

Fusion

FEATURED

1 12 Orchestra
2 14 Jet
3 14 RS
4 14 Maple
5 14 Ovangkol
6 14 Rose

DETAILS

Fusion models are customized with a wide range of wood options—solid Canadian cedar, European spruce, Indian rosewood, figured ovangkol and flamed maple. All Fusion models have thin 1 7/8" necks and comfortably contoured, radiused fingerboards.

MORE

All models feature hand-inlayed multi-ring wood or Mother of Pearl rosettes and a unique headstock design. "Pro" level models have all solid backs and sides.
